Wheelchair Lift (PWD)

Hydraulic wheelchair lift is used to help people travel between different floors, it is widely used in home, hotel, bank and hospital. Standard lifting capacity is 250kg, which satisfy majority of requirements in daily life. Top features include but not limited to stability, durability, good appearance and cost efficiency.

- ◆ PLC control system
- ◆ Customized service
- ◆ High safety
- ◆ Warranty

Wheelchair Lift

Standard features

- ◆ T6 series aluminum alloy
- ◆ Lift speed 4m/min
- ◆ 24V DC control
- ◆ Multi-control modes
- ◆ 180° or 90° access
- ◆ Stable and safety hydraulic drive system
- ◆ Standard 250kg capacity
- ◆ Powder coating
- ◆ Explosive-proof valve
- ◆ Safety sensor under platform
- ◆ 5 year warranty on main structural components

Wheelchair Lift Parameters

Model	Load Capacity	Platform Size	Travel Height	Power	Dimension
HL-2	250kg	1300x900mm	2000mm	1.5KW	1460*1330mm
HL-4	250kg	1300x900mm	4000mm	1.5KW	1460*1330mm
HL-6	250kg	1300x900mm	6000mm	2.2KW	1460*1330mm
HL-8	250kg	1300x900mm	8000mm	2.2KW	1460*1330mm
HL-10	250kg	1300x900mm	10000mm	2.2KW	1460*1330mm

Customize according to your needs.

Key Parts

Oil-submerged hydraulic power station

Why Choose Us

LEMAX is not only a manufacturer of lifting equipment, but also a producer of key components. From the boom of AWP to the support structures of cargo lift, we handle essential manufacturing processes internally to maintain strict quality control. We use premium-grade steel that surpasses industry standards, significantly enhancing the strength, stability, and safety of our equipment.

We Are Perfect For Lift Problems

Our Services:

Backed by years of hands-on experience, our engineers and technicians deliver expert solutions in lifting equipment design, production, and installation—providing customers with reliable and efficient service.

MANUFACTURER

LEMAX is a leading lifting equipment manufacturer, continuously providing safer and more ideal lifting solutions to customers around the world.

QUALITY

The main frame of the lift is manufactured by ourselves, using high-quality steel that exceeds industry standards to ensure strict quality control.

PRICES

Since we carry out most of the key manufacturing of the machines ourselves, we are able to offer better prices

Why We are The Best

LEMAX is a professional manufacturer specializing in the design, production, sales, and service of hydraulic lifting equipment. Our product range includes aerial work platforms, hydraulic freight elevators, wheelchair lifts, scissor lifts, car lifts, car turntables, parking lifts, and more.

We provide reliable and efficient lifting solutions to customers in over 105 countries and regions worldwide, widely used in industrial, logistics, construction, commercial, and public sectors.
